Vitamin C more than 200mg  
Vitamin E more than 400mg  
Yohimbe

**NICOTINE PRODUCTS TO AVOID**

Cigarettes  
Cigars

Nicotine Gum  
Patches

If you are scheduled to have surgery, it is import that you **DO NOT** take Aspirin or Aspirin containing meds. This includes anti-inflammatory meds containing ibuprofen and Salicylate. Most pain medications can act as anticoagulants and cause abnormal bleeding during surgery. Please stop taking any and all medications, vitamins, herbal supplements, nicotine and diet products listed above. If you have any questions please call our office at **(954) 779-2777**. DO NOT stop taking any prescription medications without checking with your physician first.

I have read the above and agree to comply.
